

## Crono 40 G

### Cultivators

Lightweight for easy maneuvering, immediate start up, ergonomic with adjustable height and handle design for working with less fatigue, throttle control and transmission directly on the handle. They till the garden and make a crisp bed edge. The range includes models for demanding work on bigger lots as well as products for smaller garden areas and also offers several accessories which allow use of the cultivators from spring to autumn.

Handle adjustable in height

Transport wheels at rear
