

12-ZONE DIGITAL IRRIGATION CONTROLLER

MODEL NO. ITC1200

ACTUATOR SOLENOID VALVE

Features

- Seasonally adjusted irrigation function
- 12 zones irrigation frequencies selectable
- Rain delay function

Specifications

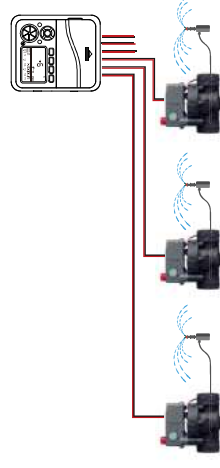

Type	12-ZONE
With wired/wireless sensors	Wired rain sensor
Controlled valve	2xAC 24V valves and 1 master valve
Manual Watering duration	1-120 min
Watering duration	Every minutes every 1-4 hours
Gateway or not	Not gateway
Waterproof	IP54
Power	AC 24V 1xCR2032

Packaging

Quantity in pack	12Pcs/Ctn
Box/Carton size	203x138x110mm/526x334x320mm
Box/Carton weight	1.2KG/14.5KG

Model

Model Type	Electronic Valve
Size(mm)	125x80x115
Applicable Controller	ITC1200/HC601W
CONNECTIONS BSP/NPT	1"
Operation pressure (bar)	0.2-10 bar
Flow rate (m ³ /h)	15 m ³ /h
Voltage(V)	AC Latching 12-40V
Pulse Width (msec)	260

Powerful scheduling with simple operation

Paired with wired rain sensor to skip watering on rainy days

Enhanced waterproof cover for harsh weather protection

12 zones support diverse irrigation areas
